

## Esri South Africa givesBACK brings festive cheer to Yenzani Children's Home

Respect, Joy and Time is the recipe for creating real bonds with our Future Generation! Esri South Africa recently reached out to Yenzani Children's Home as part of their givesBACK initiative which aims to create positive change and promote education and geography within the South African community.

In preparation for the fast-approaching festive season, Esri South Africa surprised the children at Yenzani with gifts which included school shoes and stationery for the upcoming year. The day was filled with fun games and activities to create happy memories. Esri South Africa team took back the 'hope' that the children of Yenzani will be inspired to build their dreams and reach for their goals as they become the change to drive a brighter South Africa.

'It takes a village to raise a child'. Thank you Yenzani Children's Home for providing us the opportunity to be a part of that "Village"!
